

Associate Program of the Hector Fellow Academy

Aim for the Hector Fellows

- > Platform for new research cooperations
- > Integration of employees into an interdisciplinary scientific network
- > Staff development: Cost-neutral further training of their own junior researchers
- > Strengthening the Hector Fellow Academy Network

Value for Junior Scientists

- > Preparation for leadership positions in science and industry
- > Networking and interdisciplinary knowledge transfer
- > Payment of travel and accommodation costs

What is the Associate Program?

- > Tailor-made advanced training for natural and engineering scientists
- > Transfer of management know-how and science communication trainings
 - > Participation in Symposia of the Hector Fellow Academy
 - > Annual research funding amounting to 9,500€

Requirements for junior researchers

- > Employment with a Hector Fellow for at least another 2 years
- > Master's degree ≤ 1.5
- > Willingness to get involved in the HFA

Admission process

- > CV, letter of motivation and recommendation by HF, project description
- > Decision by HFA admission committee
